### 市場動態

## 通漲緩和

最新的通漲數據證實了聯儲局的觀察是正確的，先前之通漲只是短暫性，如今終於趨向緩和。也是說下周例會不會決定收水，要留待 11 月或 12 月才定案，而加息時間會由明年底押後至 2023 年初。美匯回穩，美股趁好消息出貨而不是入貨，皆因水位過高，基於股跌金升的市場定律，金價升破 1800 關位。但沒有再向上，在 1808.90 回頭。

保力加通道底線再向上移，今天已升至 1775。金價剛好升回中線的 1801 水位附近，基本上仍被困在保力加通道之內，以中線為中心上上落落，沒有多大變化。那就要等下周例會的議息報告了。每日做一單，好過去打工！每日做對沖，好過等財爺派錢！阻力位是在 1835 及 1828；支持位 1754 及 1775。

Daily Trading : 每日一單：	BUY at sight 現水位入貨 1802.00	Profit At 獲利 1817.00	Stop Loss 止蝕 1797.00	Previous Day 上日利潤 - 5 Accumulated Annual Profit 本年累積利潤 +174
Hedging: (Buy & sell simultaneously) 對沖單：(同時買入及沽出)	1802.00 1801.50	1817.00 1786.50	1797.00 1806.50	Previous Day 上日利潤 - 10 Accumulated Annual Profit 本年累積利潤 +332

The essence of Daily Trading must base upon profit \$15 to stop loss of \$5, some take profit at going for \$2 or \$3, but keep on stop loss of \$5. Thus is doomed to fail, but misled of following a strategy of doom to win. Ratio 15-5 must be kept, don't just follow other to lose and dare not follow to win.

*Risk disclosure: Price can go up and down at any moment, trade and bear the risk according to your own capital;  
all suggestions are for reference only, final decision still lies upon investors.*

### Market Comments

## Inflation Easing

The latest inflation data confirms that the Fed's observations are correct. The previous inflation was only a short-term one, but now it is finally easing. It also means that next week's FOMC meeting would not have tapering. It will be decided either in November or December, and the interest rate hike will be postponed from the end of next year to the beginning of 2023. The USD Index stabilized, and US stocks took advantage of the good news to sell instead of buying, all due to the current high level. Owing to the market principle of stock and gold are in reverse proportion, the price of gold rose above the 1,800 mark. But it didn't go up anymore and turned back at 1808.90.

The bottom line of Bollinger Bands moved up again, and it has risen to 1775 today. The price of gold just rose back to the 1801 level of the midline, basically still trapped in the Bollinger Channel, going up and down centered on the midline, with little change. Then we have to wait for the Statement of FOMC next week. *Place one Trading Order per day as in this bulletin, it's better than going to work for your boss; place the hedging every day, better than waiting for the Treasury to dispatch money.* Resistance levels are at 1827 and 1835; support levels are 1775 and 1754.
